

The EZ SMART Multiform Table Top Kit is an essential part of working with the EZ SMART Tracksaw System. Using a 24" x 48" piece of plywood as a base, the aluminum T-tracks (Center Tracks), sliding plastic Supports, and standard 1X stock can expand to support a full 4' x 8' sheet of plywood. The sliding Supports allow for optimal support of the workpiece. The Multiform Table can be used with the EZ SMART Tracksaw System, the EZ SMART Universal Edge Guide, and EZ SMART Super Routing Kit (all sold separately) to enable you to tackle any job safely and efficiently.

Included:

- 4 – 24" Aluminum T-tracks (Center Tracks)
- 4 – 12" Aluminum T-tracks (Corner Tracks)
- 4 – 24" Plastic Supports
- 4 – 12" Plastic Supports
- 1 Hardware kit (screws, nuts, and washers)

\* Wood parts not included

\* All aluminum extrusions are pre-drilled

## ASSEMBLING THE TABLE

The following is the recommended configuration for tabletop assembly.

**STEP 1:** Start with a 24" x 48" piece of 3/4" plywood. This will be your table top.

**STEP 2:** Position the outer Center Tracks 13" from the ends of the plywood, as shown to the right. Mark the locations of the pre-drilled holes onto the plywood. Drill an appropriate sized hole for the T-nut and screw. Attach the Center Tracks to the plywood at the pre-drilled holes in the tracks using the included T-nuts and screws. The T-nut is inserted up through the plywood. See drawing below

**STEP 3:** Measure a 6" square from each corner of the table top (as shown). Attach the Corner Tracks using the provided washer, nylon lock nut, and screw. See the drawing below for details. Tighten them firmly, but allow for the rotation of the tracks.

**STEP 4:** The remaining Center Tracks, can be spaced as shown, or at even intervals, and attached with the included countersunk screws and T-nuts.

**STEP 5:** Insert 24" -long pieces of 1x3 or 1x4 wood into the plastic Supports. Attach with the included screws through the upright wings of the Supports.

### CENTER TRACKS

### CORNER TRACKS

## USING THE MULTIFORM TABLE TOP KIT

**Supporting a full sheet of plywood**

**Using the EZ SMART Tracksaw System\* and Smart Clamps\***

**Using the Universal Edge Guide\***

**Using the Super Smart Routing Kit\* and EZ SMART Tracksaw System\***

\* Sold separately
